kimball.jarrold@gmail.com

Dear whom it may concern,

Through my marketing and data research work with Centimark corporation I was introduced to the business side of technology. Using my market research skills aligned with my computer science skills I believe my attributes are more than fitting for this internship with Macy's and I look forward to learning from your knowledgeable staff.

Work Experience: From my first major position as Operations Manager at Poseidon Products I had to use my leadership skills to manage a successful team of employees. Through that experience I gained a position from Centimark corporation as working with a team to conduct market research and increase our customer base.

Coursework: From courses at Appalachian State University and personal interest is where I acquired my knowledge for Computer Science. Particularly I am interested in mobile app development and cloud development. I have experience coding in Visual Basic, Java, Javascript HTML, C, and C++.

From working with a team to extending my knowledge of computer science, this internship seems like a perfect fit for me. I would be thrilled to speak to you sometime this week.

Thank you for your time,

A handwritten signature in black ink, appearing to read "Jarrold Kimball". The signature is fluid and cursive, with the first name "Jarrold" being more prominent than the last name "Kimball".
