Boone,NC

Extremely driven Computer Science student looking to gain experience in my field and put my skills to the test.

Skills

Leadership

Management

Problem Solving

Quick Thinking

Adaptability

Programming Languages

Java

Javascript

HTML

C

C++

Visual Basic

Coursework Examples

While completing my computer science degree at Appalachian State University I worked on various projects and learned skills to apply in the workforce. I worked with a team to build our own multimedia database and website which helped me gain experience coding with php and HTML as well as working with a team to complete a major project. 4 of my major courses involved programming with Java and 3 were C and C++.

Past Work Experience

Operations Manager for Poseidon Products

March 2014 – March 2018   Rock Hill, SC

Field Laborer

- Manufactured Products
- Shipped and received products to and from customers

Operations Manager
